Konstverket "Apollo och Dafne" som finns i Ekonomikums huvudentré har väckt en stor debatt under den senaste tiden. I slutet av förra året upptäckte en student vid Uppsala universitet att konstverket fortfarande fanns på plats i lokalerna och kontaktade då universitetet. Det här var inte första gången som diskussioner uppstått och det bestämdes att en paneldebatt skulle hållas i samband med detta. Läs mer om paneldebatten och de fortsatta diskussionerna i media på vår hemsida.

The gender lunches for this semester have now ended. We would like to thank everyone who attended the lunches and to the researchers who gave a presentation of their research. The lunches have been very popular this semester and a lot of the lunches have been completely sold out. We are very happy to announce that the gender lunches will continue this fall. The schedule will be announced in the end of May.

PAST EVENTS

2015-03-26

In March the Centre held an open house for all interested. A total of 35 visitors came to see our new location, learned more about the Centre and the current ongoing research. No oral presentations were held but the researchers had made posters with information and pictures of their research. This was a great way to learn more about everyone's ongoing projects, an easy way to show the visitors the width of our research and also a great way to decorate the corridors.

Since the posters gave such a positive response the Centre decided to publish them in a booklet. The booklet will be available for all interested from May 10th. If you would like to have a printed copy feel free to contact: julia.benjaminson@gender.uu.se.
